

# Monoclonal Antibody to Human Interleukin-17A

|                       |                                                                                                                                                                                                                                                      |
|-----------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Antibody:</b>      | MT44.6                                                                                                                                                                                                                                               |
| <b>Product code:</b>  | 3520-3-1000                                                                                                                                                                                                                                          |
| <b>Quantity:</b>      | 1000 µg                                                                                                                                                                                                                                              |
| <b>Immunogen:</b>     | Recombinant human IL-17A                                                                                                                                                                                                                             |
| <b>Isotype:</b>       | Mouse IgG1                                                                                                                                                                                                                                           |
| <b>Specificity:</b>   | Native and recombinant human IL-17A. Cross-reacts with native IL-17 from rhesus and cynomolgus macaques and common marmoset monkeys. Please contact Mabtech for information on reactivity with other monkey species.                                 |
| <b>Concentration:</b> | Supplied at 0.5 mg/ml in sterile filtered (0.2 µm) PBS with 0.02% sodium azide.                                                                                                                                                                      |
| <b>Purification:</b>  | Purified from <i>in vitro</i> cultures by protein G affinity chromatography.                                                                                                                                                                         |
| <b>Storage:</b>       | Store product at 4-8°C or frozen at -20°C or below. Avoid repeated freezing/thawing.                                                                                                                                                                 |
| <b>Applications:</b>  | For quantification of IL-17A in solution e.g. cell culture supernatants using ELISA and for enumeration of IL-17A producing cells using ELISpot. MT44.6 is recommended as coating mAb in combination with detection mAb MT504 (product code 3520-6). |
| <b>Protocols:</b>     | Please contact Mabtech for ELISpot and ELISA protocols.                                                                                                                                                                                              |
