

Description

This biotinylated peptide contains the residues surrounding serine 144 of PAK1 and serine 141 of PAK2. This peptide was generated for use as a substrate in heterogeneous or homogeneous kinase assays.

Quality Control

The quality of the biotinylated peptide was evaluated by reverse-phase HPLC and by mass spectrometry.

Peptide Core Sequence

QKYMS*FT

Molecular Weight

1775 daltons

Directions for Use

The phosphorylated form of the peptide can be detected with the Phospho-(Ser/Thr) Phe Antibody #9631.
