

## **Description**

This biotinylated peptide contains the residues surrounding tyrosine 87 of Gastrin Precursor. This peptide was generated for use as a substrate in heterogeneous or homogeneous kinase assays.

## **Quality Control**

The quality of the biotinylated peptide was evaluated by reverse-phase HPLC and by mass spectrometry.

## **Peptide Core Sequence**

EEAY\*GWM

## **Molecular Weight**

2853 daltons

## **Directions for Use**

The phosphorylated form of the peptide can be detected with the Phospho-Tyrosine Mouse mAb (P-Tyr-100) #9411.
