

Human IL-8 Recombinant Protein Carrier-Free

Catalog Number: 34-8089

Also Known As:Interleukin-8, IL8, 72aa

RUO: For Research Use Only. Not for use in diagnostic procedures.

Product Information

Contents: Human IL-8 Recombinant Protein Carrier-Free

REF Catalog Number: 34-8089

Handling Conditions: For best recovery, quick-spin vial prior to

opening. Use in sterile envrioment.

Source: E. coli expressed amino acids Ser 28-Ser 99 of human

IL-8 accession # NM_000584

Molecular Mass: The protein is not methionylated at the N-terminal and has a predicted molecular mass of 8,386. The DTT reduced protein migrates as an 8 kDa polypeptide and the non-reduced polypeptide migrates as a 9kDa polypeptide on SDS-PAGE.

Purity: > 98%, as determined by SDS-PAGE

Endotoxin Level: Less than 0.01 ng/ug cytokine as determined

by the LAL assay.

Bioactivity: Measured by chemotaxis assay of human peripheral blood neutrophils. Maximal chemoattractant

activity was observed between 10-100 ng/mL.

Formulation: Sterile liquid; 10 mM sodium phosphate, pH 7.2, 150 mM NaCl. 0.22 um filtered.

Temperature Limitation: Store at less than or equal to -70°C.

Batch Code: Refer to Vial
Use By: Refer to Vial

Description

Human IL-8, also called neutrophil attractant/activating protein (NAP-1), monocyte derived neutrophil activating peptide (MONAP), monocyte derived neutrophil activating factor (ANF), monocyte derived neutrophil chemotactic factor (MDNCF), and neutophil activating factor (NAF), is a ~6-8 kDa factor produced by variety types of cells including monocytes, lymphocytes, granulocytes, fibroblasts and endothelial cells. IL-8 is an inflammatory cytokine which functions as a neutrophil chemoatractant and activating factor. It also attracts basophils and a subpopulation of lymphocytes.

Applications Reported

Recombinant human IL-8 is biologically active.

Applications Tested

This recombinant human IL-8 has been tested in bioassays for chemoattractant activity, with maximal activity between 10-100 ng/ml.

Not for further distribution without written consent.
