
MATERIAL DATA SHEET

UbcH6/UBE2E1 Polyclonal Ab**Cat. # A-630**

UbcH6 mediates the selective degradation of short-lived and abnormal proteins. The enzyme has high similarity to Ubch5 E2 subfamily, but it does not participate in HECT-domain mediated events.

Product Information

Quantity:	200 µl
Source:	Protein A affinity purified rabbit polyclonal antibody.
Antigen:	Full-length, highly purified human UbcH6 protein.
Stock:	PBS pH 7.4, 20% glycerol.

Use & Storage

Specificity:	Recommended dilution range for Western blot analysis is 1:100 to 1:1000.
Storage:	Store unopened vial at -80°C. Avoid repeated freeze-thaw cycles. Aliquot antibody in small volumes prior to freezing.
