# HIF1-alpha ABfinity™ Recombinant Rabbit Monoclonal Antibody - Purified

## Catalog no. 700505

(See product label for lot information)

Clone/PAD: Isotype: Gene ID: Protein Acc. no.: Qty: Volume: Concentration:

16H4L13 IgG 3091 Q16665 100 μg 200 μI 0.5 mg/mL

#### Formulation

Phosphate buffered saline (PBS) with 0.09% sodium azide.

**Application** For use in Western Blotting and ELISA.

#### Reactivity

This antibody is specific for human HIF1alpha.

**Immunogen** Peptide

Immunogen sequence EDTEAKNPFSTQ

Sequence Identity Human

Sequence Homology Mouse

#### **Expected Reactivity**

Based on sequence identity and similarity, reactivity to Human and Mouse are predicted.

#### Storage

2-8°C for up to 1 month, -20°C for long term storage. Avoid repeated freezing and thawing.

### **Expiration Date**

Expires one year from date of receipt when stored as instructed.

### Background

HIF1-alpha (Hypoxia-inducible factor 1, alpha), a subunit HIF1, which is a transcription factor found in mammalian cells cultured under reduced oxygen tension (1). HIF1 functions as a transcriptional regulator of the adaptive response to hypoxia. HIF1-alpha regulates hypoxia-mediated apoptosis, cell proliferation and tumour angiogenesis (2). Hypoxia which induces p53 protein accumulation, directly interacts with HIF1-alpha and reduces hypoxia-induced expression of HIF1-alpha by promoting MDM2-mediated ubiquitination and proteasomal degradation under hypoxic conditions (3-4). Recent studies suggests that induction of NOX4 by HIF1-alpha contributes to maintain ROS levels after hypoxia and hypoxia-induced proliferation (5). In humans, it is located on the q arm of chromosome 14 (6).

#### **Applications:**

	Species	Test Material	Concentration
Western Blotting	Human	HEK	0.1 - 2 μg/ml
Indirect ELISA	Human	HEK	5x10⁻⁴ – 10 µg/ml

For Research Use Only. CAUTION: Not for human or animal therapeutic or diagnostic use.

#### Indirect ELISA - Hif1a 3 Absorbance @ 450nm 2 Signal window: 21.4 1 Z-factor: 0.4 Hillslope: 1.874 LOD: 41 ng/mL LOQ: 123.4 ng/mL % CV: 8 0 0 - 3 -2 2 Log conc(µg/mL)

#### Indirect ELISA of HIf1-alpha Rabbit Recombinant Monoclonal Antibody (Cat. No.700505).

Indirect ELISA was done using Hif1 alpha Rabbit Recombinant Monoclonal Antibody to detect Hif1 alpha Rabbit Recombinant Monoclonal Antibody on HEK293 cell lysate (1ug/well) using TMB (Cat. No. SB01) as substrate.

#### Western Blot analysis of HIF1-alpha ABfinity<sup>TM</sup> Recombinant Rabbit Monoclonal Antibody (Cat. No.700505).

Whole cell extract; 30µg per lane from HEK was loaded on SDS-PAGE followed by transfer on to nitrocellulose. The blot was blocked followed by incubation with HIF1-alpha ABfinity™ Recombinant Rabbit Monoclonal Antibody at 0.1µg/mL for 2 hours. Goat Anti Rabbit - HRP conjugated, was used at 1:5000 dilution as secondary antibody and developed by chemiluminescence (ECL) method. Expected size is ~93kDa.
